MEMORANDUM FOR THE RECORD

1. Colonel Edwards telephoned me on 19 July concerning the attached Joint Resolution. Mr. Hogan from Immigration and Naturalization was inquiring of the Central Intelligence Agency if we would informally concur in the purposes of this Resolution.

2. I indicated that CIA agreed with the general purposes with the thought in mind that possibly the waiver of fingerprinting requirements could be very useful to us in specific cases.

3. [] was advised subsequently that we did not wish to be quoted as concurring in the specific language of the Resolution, and he assured me that probably the most that would be said would be that CIA informally concurred in the purposes.
